

CURRICULUM VITAE

Pedro is a registered Architect in both Portugal and the UK. He studied architecture in Porto, Portugal and Oslo, Norway, graduating from FAUP-Faculdade de Arquitectura da Universidade do Porto in 2007 with a final thesis on the role of architecture in humanitarian work based on his experience in Lesotho .

Following his graduation, Pedro moved to Norway in 2008 where he worked for RRA - Reiulf Ramstad Arkitekter on projects for private houses as well as public buildings. In 2009, he returned to Lesotho to set up with Camille Bonneau the Capital Project Design and Sustainability Department for Sentebale, a UK/Lesotho charity set up by Prince Harry. Back in the UK in late 2010, Pedro worked for several award winning London practices on mainly residential and educational projects.

Having continued to work on private commissions since 2010, Pedro formally set up A+Architecture in 2014, and has since been involved in the design and construction of several projects in Portugal, UK and Southern Africa. Pedro also holds a Master in Development and Emergency Practice from CENDEP - Oxford Brookes University, and in 2014 was selected for the Portuguese representation to the 14th International Architecture Exhibition of la Biennale di Venezia.

Pedro's key skills lie in his holistic and collaborative approach to architecture, extensive technical knowledge of UK and Portuguese construction industries, and a clear logic-based approach to problem solving.

SELECTED PROJECTS

Rouse House, Quinta da Peru

Design and construction for a 700sqm house for a private client. Project on site, completion due September 2016.
